

# TLX

 **ACURA**  
PRECISION-CRAFTED PERFORMANCE

**LESS TALK.  
MORE DRIVE.**

*Type S*

The wait is over. This is the thrilling return of Type S performance. We've upped the ante on our performance pedigree, getting back to our roots and ushering in a new era of Acura performance. At its core is an Acura-exclusive 3.0L turbo, V-6 engine connected to our torque-vectoring Super Handling All-Wheel Drive™ system. When the time comes to finally pull back the curtain, it's bound to be more of an unleashing than an unveiling.

# RETURN TO FORM.

**DEP**

# EVERYTHING'S CHANGED

# BUT OUR PHILOSOPHY.

When driving enthusiasts get together for secret underground meetings, they aren't designing a conventional sedan. They're designing a vehicle to rival the best sports cars in the world. That's exactly how Acura began. That same passion went into the ground-up redesign of the 2021 TLX, only now with more than 30 years of high-performance car building and world-class racing under our belt. Every grease-covered rag and white-knuckled lap—our blood, sweat, and speed—we put it here. When we say Precision Crafted Performance, it's not just lip service, it's our birthright. This is the all-new 2021 Acura TLX.

TLX SH-AWD with Advance Package shown in Performance Red Pearl with optional accessories.

# ACTION SPEAKS LOUDER.

Entirely reengineered for 2021, the TLX is built on the most rigid sedan chassis Acura has ever created. It also marks the return of the race-inspired double-wishbone front suspension for improved grip and handling and an NSX-inspired Electro-Servo Brake (ESB) system.

The engine bay is home to an all-aluminum powerplant—a 272-hp, VTEC® turbo, direct-injection engine paired with a 10-speed automatic transmission for enhanced performance and acceleration off the line. With the Sequential SportShift paddle shifters, all that power is at your command.

**DEP**  
DEALER ePROCESS

TLX SH-AWD with A-Spec Package shown in Platinum White Pearl with optional accessories. TLX SH-AWD with A-Spec Package shown in Apex Blue Pearl.

For high-speed stability and low-speed agility, we added variable-ratio Electric Power Steering and an available TLX-first Adaptive Damper System. And with an Integrated Dynamics System with four unique drive modes, including the new Individual mode, the driver can customize their drive. Passing lanes, city corners, twisted forest roads, and even a daily commute all become new again.

## INTEGRATED DYNAMICS SYSTEM

**SH-AWD**

**FOR WEATHER.  
OR NOT.**

TLX SH-AWD with Advance Package shown in Performance Red Pearl with optional accessories.

The power of Super Handling All-Wheel Drive isn't reserved for off-road or bad weather. Its full potential is realized with high-performance driving. Available SH-AWD® is a torque-vectoring system that adapts to the driver, delivering superior maneuverability and high-performance handling. This groundbreaking technology sends power to the wheels that can use it most to enhance individual wheel speed and even help rotate the car for tighter and more precise cornering and control.

# POWERFUL BODY LANGUAGE.

The dramatic aesthetics of the redesigned TLX emphasize the power underneath. Sharp body lines and a low, wide stance give it a muscular appearance. Up front, the long, sculpted hood flows into the distinctive Diamond Pentagon Grille and next-gen, four-lamp Jewel Eye® LED headlights with Chicane™ daytime running lights inspired by the ARX-05 race car. Moving along the side, the performance proportions and sheer lines sweep out to the wide rear fenders, adding to its already powerful stance. It not only stands out on the road, it's unlike anything else on the market.

**DEP**

# ICONIC DRIVE AMBIENT LIGHTING

27 UNIQUE THEMES

# COMFORT ZONE.

The TLX's cabin takes its cues from a jet cockpit, only far more comfortable, with first-class premium materials such as genuine aluminum, available authentic open-pore wood trim, and 16-way power adjustable perforated Milano premium leather sport seats that can both heat and ventilate. And for those who don't wear driving gloves, there's an available heated steering wheel. Illuminate it all with available Iconic Drive™ ambient cabin lighting with 27 unique themes.

**DEP**

DEALER ePROCESS

TLX SH-AWD with A-Spec Package shown with Red interior.

The only way to advance the automobile is to have the courage to challenge convention. We pushed those boundaries everywhere we could and put them right at your fingertips. The 10.2-inch HD Dual-Content Center Display gives direct access to the entire audio and connectivity suite through the True Touchpad Interface.™ This innovative technology operates similar to a touch screen. Wherever you touch on the pad, the interface responds, mirroring that position directly on-screen.

The Technology, A-Spec, and Advance Packages include the Acura Satellite-Linked Navigation System™ providing turn-by-turn guidance and natural language voice recognition! And the available 10.5-inch full-color Head-Up Display projects crucial driving information on the windshield so the driver never has to take their focus off the road.

**LESS  
IMITATION.  
MORE  
INNOVATION.**

# SPEAKS VOLUMES.

Turn the TLX's cabin into a concert hall with the available ELS Studio® 3D Premium Audio System tuned by eight-time Grammy® award-winning producer Elliot Scheiner. Seventeen speakers, meticulously placed around the cabin, including four ceiling-mounted speakers and a new Twin Telford™ subwoofer design, come to life with 710 watts of power. Over the airways, streaming digitally, or playing your own playlist, this is music as it's meant to be heard.

ELS STUDIO 3D

# SAFETY FIRST.

In the realm of safety performance, if you don't come in first, you might as well be last. That's why our suite of advanced safety and driver-assistance technologies comes standard on every sedan and SUV we make. AcuraWatch™ supports the driver with a suite of active safety and driver-assistance technologies that help keep the driver alert and reduce fatigue by continuously monitoring the vehicle's surroundings, warning of potential hazards, providing steering input to help keep you in the center of a detected lane and, if necessary, automatically braking the car in emergency situations to avoid a frontal collision.<sup>4</sup>

With the Technology, A-Spec, and Advance Packages, front and rear parking sensors warn the driver when they're cutting it too close to an object. And in case of an impact, in addition to front side airbags and side curtain airbags, the TLX features front knee airbags as well as a world's-first next-gen passenger front airbag featuring three chambers that protect and cradle the head.

TLX SH-AWD with A-Spec Package shown in Apex Blue Pearl. TLX SH-AWD with A-Spec Package shown in Platinum White Pearl with optional accessories.

HomeLink and the HomeLink house are registered trademarks of Johnson Controls®. Twin Telford is a trademark of Panasonic Corporation of North America. Ultrasuede is a registered trademark of Toray Kabushiki Kaisha (Toray Industries, Inc.). 1 Navigation system available in the 48 contiguous United States and Hawaii. See your local Acura dealer for current navigation system area coverage. 2 Depending on use, Android Auto or Apple CarPlay can share certain user and vehicle information (e.g., vehicle location, speed, and other operating conditions) with Google™ and its service providers or the connected iPhone®, respectively. See Google’s and Apple’s privacy policies for details regarding the use and handling of data uploaded by Android Auto or Apple CarPlay. Use of Android Auto or Apple CarPlay is at user’s own risk and is subject to agreement to the Android Auto or Apple CarPlay terms of use, which are, respectively, presented to the user when the Android Auto application is downloaded to the user’s Android™ phone or included as part of the Apple® iOS terms of use. Android Auto and Apple CarPlay vehicle integration is provided “as is,” and Honda cannot guarantee operability or functionality now or in the future due to, among other conditions, changes in the applicable software or operating system, service interruptions, or incompatibility or obsolescence of vehicle-integrated hardware or software. See dealer for details. Only use Android Auto or Apple CarPlay when conditions allow you to do so safely. 3 Drive responsibly. Some State laws prohibit the operation of handheld electronic devices while operating a vehicle. For safety reasons, always launch your audio application or perform any other operations on your phone or audio device only when the vehicle is safely parked. 4 Driver remains responsible for safely operating vehicle and avoiding collisions. 5 Depending on the circumstances, CMBS may not go through all of the alert stages before initiating the last stage (of collision mitigation). CMBS cannot detect all objects ahead and may not detect a given object; accuracy will vary based on weather, speed, and other factors. System operation affected by high interior heat. Driver remains responsible for safely operating vehicle and avoiding collisions. 6 FCW cannot detect all objects ahead and may not detect a given object; accuracy will vary based on weather, speed, and other factors. System operation affected by extreme interior heat. FCW does not include a braking function. Driver remains responsible for safely operating vehicle and avoiding collisions. 7 LDW only alerts drivers when lane drift is detected without a turn signal in use. LDW may not detect all lane markings or lane departures; accuracy will vary based on weather, speed, and road conditions. System operation affected by extreme interior heat. Driver remains responsible for safely operating vehicle and avoiding collisions. 8 LKAS (Lane Keeping Assist System) only operates when lane drift is detected without a turn signal in use. LKAS may not detect all lane markings or lane departures; accuracy will vary based on weather, speed, and road conditions. System operation affected by extreme interior heat. Driver remains responsible for safely operating vehicle and avoiding collisions. 9 Adaptive Cruise Control (ACC) with Low-Speed Follow cannot detect all objects ahead and may not detect a given object; accuracy will vary based on weather, speed, and other factors. ACC should not be used in heavy traffic, poor weather, or on winding roads. Driver remains responsible for avoiding collisions. 10 The system is not a substitute for your own visual assessment before changing lanes; system accuracy will vary based on weather, size of object, and speed. 11 Always visually confirm that it is safe to drive before backing up; the rearview camera display does not provide complete information about all conditions and objects at the rear of your vehicle. 12 Always visually confirm that it is safe to drive; the camera display does not provide complete information about all conditions and objects around your vehicle. 13 The system is not a substitute for your own visual assessment before backing up; system accuracy will vary based on weather, size of object, and speed. 14 Based on 2021 EPA mileage ratings. Use for comparison purposes only. Your actual mileage will vary depending on how you drive and maintain your vehicle, driving conditions, and other factors. 15 Use of lower-octane gasoline can cause an occasional metallic knocking noise in the engine and will result in decreased engine performance. Use of gasoline with a pump octane less than 87 can lead to engine damage. 16 The Advanced Compatibility Engineering™ (ACE™) body structure is a Honda-exclusive body design that enhances occupant protection and crash compatibility in frontal collisions. The ACE design utilizes a network of connected structural elements to distribute crash energy more evenly throughout the front of the vehicle. This enhanced frontal crash energy management helps to reduce the forces transferred to the passenger compartment and can help to more evenly disperse the forces transferred to other vehicles in a crash. 17 VSA is not a substitute for safe driving. It cannot correct the vehicle’s course in every situation or compensate for reckless driving. Control of the vehicle always remains with the driver. 18 This system monitors the pressure in all four tires and alerts the driver when pressure loss in any tire becomes significantly low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge. Do not rely solely on the monitoring system. Please see your Acura dealer for details. 19 AcuraLink Real-Time Traffic requires a monthly premium XM NavTraffic® subscription. XM NavTraffic is only available in select markets. The XM name and XM NavTraffic are trademarks of XM Satellite Radio, Inc. 20 Siri® is available on iPhone® 4s or later, iPad® with Retina® display, iPad mini®, and iPod touch® (5th generation) and requires Internet access. Siri® may not be available in all languages or in all areas, and features may vary by area. Cellular data charges may apply. Some features may not be available for all countries or all areas. 21 Compatible with select phones with Bluetooth® technology. Your wireless carrier’s rate plans apply. State or local laws may limit use of texting feature. Only use texting feature when conditions allow you to do so safely. 22 SiriusXM services require a subscription after any trial period. If you decide to continue your SiriusXM service at the end of your trial subscription, the plan you choose will automatically renew and bill at then-current rates until you call SiriusXM at 1-866-635-2349 to cancel. See our Customer Agreement for complete terms at www.siriusxm.com. Fees and programming subject to change. XM satellite service is available only to those 18 years and older in the 48 contiguous United States and D.C. ©2020 Sirius XM Radio, Inc. Sirius, XM, and all related marks and logos are trademarks of Sirius XM Radio, Inc. 23 The USB Audio Interface is used for direct connection to and control of some current digital audio players and other USB devices that contain MP3, WMA, or AAC music files. Some USB devices with security software and digital rights-protected files may not work. Please see your Acura dealer for details on compatibility. Printed in U.S.A. 08/20 60M E594500
