UNRIVALED CAPABILITY IN A MID-SIZE TRUCK.

Colorado LT Crew Cab in Cyber Grey Metallic with available features and dealer-installed Chevrolet Accessories.

¹ 2015 Chevrolet Colorado 2WD with automatic transmission. Fuel consumption estimates based on GM preliminary testing in accordance with new 2015 Model Year Government of Canada approved test methods. Refer to vehicles.nrcan.gc.ca for details. Your actual fuel consumption may vary. ² Requires available 3.6L V6 engine. ³ Based on WardsAuto.com 2014 Small Pickup segment and latest competitive information at the time of printing. Excludes other GM models. ⁴ Requires available 3.6L V6 engine and available Trailering Package. Before you buy a vehicle or use it for trailering, carefully review the Trailering section of the Owner's Manual. The weight of passengers, cargo and options or accessories may reduce how much you can tow.

200-HP 4-CYLINDER ENGINE. This engine features a dual overhead cam design working with continuously Variable Valve Timing and Direct Injection, enhancing performance in the city and on the highway. The 2.5L engine highway fuel consumption rating is 8.8 L/100 km¹

305-HP 3.6L V6 ENGINE. This available engine delivers best-in-class horsepower.^{2,3} Direct Injection provides a more complete combustion of fuel, which helps improve efficiency and power. Variable Valve Timing consistently boosts power by

providing near-peak torque over a wider rpm range. It also contributes to Colorado having a city fuel consumption rating of 13.0 L/100 km¹ and a highway fuel consumption rating of 9.2 L/100 km¹

6-SPEED AUTOMATIC TRANSMISSION. An electronically controlled 6-speed automatic transmission with Tow/Haul mode² and auto grade braking is standard on Crew Cab, Z71 and LT models.

BEST-IN-CLASS TOWING.³ A properly equipped Colorado with the available 3.6L V6 engine can tow up to 3175 kg (7000 lb.).⁴ That's full-size capability in a more manoeuvrable package.

FULLY BOXED FRAME. This rugged foundation provides maximum hauling capability while isolating noise and vibration. Strategic use of advanced high-strength steel reduces mass.

STRONG AND SMOOTH-RIDING. With a coil-over-shock front suspension, rear leaf springs, asymmetric rear shock placements and a wide track, Colorado is solid, smooth and capable — loaded and unloaded.

TRUCK-PROVEN TECHNOLOGIES. Electric power steering, 4-wheel disc brakes and long-lasting DuraLife™ brake rotors deliver a confident drive. A class-exclusive³ automatic locking rear differential is available.

THE MOST ADVANCED SAFETY PACKAGE OF ANY MID-SIZE TRUCK.

HIGH-STRENGTH STEEL FRAME. The all-new ladder-type frame is made from 83% high-strength steel and ultra-high-strength steel for enhanced occupant protection and reduced mass.

ROLL-FORMED STEEL PICKUP BOX. A roll-formed steel pickup box with advanced high-strength steel is stronger and lighter than traditional stamped-steel designs.

SIX AIRBAGS. Every 2015 Colorado offers six standard airbags! Sensors determine how many airbags deploy – including side airbags for the driver and front passenger.

¹ Airbag inflation can cause severe injury or death to anyone too close to the airbag when it deploys. Be sure every occupant is properly restrained. Always use safety belts and the correct restraint for your child's age and size. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with a passenger airbag. See the Owner's Manual and the child safety seat instructions for more safety information.

THE SECURITY OF ACTIVE SAFETY.

TRAVEL WITH CONFIDENCE. A host of available innovative driver assist technologies use strategically located cameras and radar sensors to help warn you of potential risks on the road – or even in a parking lot.

AVAILABLE SAFETY PACKAGE. This package, available on LT models, includes Forward Collision Alert and Lane Departure Warning. A rear vision camera is standard on all models. This is class-leading² safety technology.

STANDARD STABILITRAK. The advanced StabiliTrak[®] Electronic Stability Control System with rollover mitigation works in conjunction with standard ABS and traction control.

SAFETY STARTS WITH YOU. Safety features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Read the Colorado Owner's Manual for more important safety information.

² Based on WardsAuto.com 2014 Small Pickup segment and latest competitive information at the time of printing. Excludes other GM vehicles.
